Imagery with Metadata

Summary:

Satellite imagery for the world and high-resolution aerial imagery for many areas, with available layers showing boundaries, places, and transportation including street names. Zoom in and click on imagery for metadata information.

Map by esri Modified: December 11, 2014

★★★★★ (22 Ratings, 1728903 Views)

Description:

World Imagery provides one meter or better satellite and aerial imagery in many parts of the world and lower resolution satellite imagery worldwide. The map includes 15m TerraColor imagery at small and mid-scales (591M down to 72k) and 2.5m SPOT Imagery (288k to 72k) for the world, and USGS 15m Landsat imagery for Antarctica. The map features 0.3m resolution imagery in the continental United States and parts of Western Europe from DigitalGlobe. Additional DigitalGlobe sub-meter imagery is featured in many parts of the world, with concentrations in South America, Eastern Europe, India, Japan, the Middle East and Northern Africa, Southern Africa, Australia, and New Zealand. In other parts of the world, 1 meter resolution imagery is

Deadline Fast Approaching For Young Farmer Sustainability Award

1/16/15, 2:32 PM

Are you or do you know a farmer under 40 who demonstrates excellence in business and environmental sustainability? Bayer CropScience would like to have a word with you.

The Bayer CropScience Young Farmer Sustainability Award recognizes young agricultural producers who have made sustainability a priority on their operations. The deadline to apply is Friday, Jan. 23.

Entrants will be judged by a panel of experts on entrepreneurial initiative and new approaches to farming (50%), environmental and other on-farm sustainability efforts (30%), and economic stability and sustainability (20%). Any farmer or rancher age 40 and under who receives at least half of his or her income from farming and farm-related activities may...
